About Me

Adaptable developer with **5 years** of web development experience, who owns several **open-source projects** and a proven knowledge of **front-end** and **back-end** technologies.

Skills

I am experienced in **React, NextJS, JavaScript, Node**. I also have experience using different database technologies (relational and non-relational), and back-end technologies, such as **Express** and **Django**.

Experience

February 2021 - Present

Artus Interactive - *Full Stack Web Developer*

- Worked on different Node scripts to reduce the workload and automate processes.
- Developed and refactored multiple React components for some big P&G brands.
- Worked on complex css animations using **gsap** and **framer-motion**.
- Communicated and worked with people across many different countries and cultures to meet business goals.

October 2020 - February 2021

CamelWeb - *Front-end Developer*

- Helped transition a huge P&G brand website from Gatsby to NextJS, which improved the performance and maintainability of the project.
- Developed multiple React components and layouts for the same P&G brands.

April 2019 - May 2020

ProFotoVideo - *Full Stack Web Developer*

- Responsible with the development and maintenance of a Django-powered website, which is querying a PostgreSQL database.
- Implemented lazy-loading and automatic thumbnail creation on image-upload, resolving performance issues and decreasing user bounce rate.

October 2018 - April 2019

ColorMedical - *Full Stack Web Developer*

- Solely responsible with the development of a medical clothing website, which includes a custom CMS built from scratch, a RESTful API with authentication functionality and a React front-end.

June 2018 - September 2018

TopBudget - *Full Stack Web Developer*

- Developed React components, handled complex state with **Redux** and added PWA functionality.
- Handled authentication and server-side operations using **Django Rest Framework**.
